Company Profile

SOFTWIZPRO LTD
is a forward-thinking business
technology company focused on
solving operational problems
through practical software,
automation and digital solutions.

Smart Work. Smart Systems. Real Results.

Our Core Values;

RELIABILITY & SECURITY

- We build systems and relationships people can depend on. We respect the responsibility that comes with business data.

TRANSPARENCY & CONSISTENCY

- We communicate honestly, clearly and consistently.

TECHNICAL COMPETENCE

- We pursue mastery, continuous learning and sound engineering

IMPACT & PARTNERSHIP

- Technology must create measurable value, not simply exist. We walk with clients beyond the sale.

SOFTWIZPRO LTD COMPANY

SOFTWIZ POS

A practical business management and point-of-sale solution designed to give owners control over sales, stock and daily operations.

- Real stock management
- Expiry and out-of-stock management notifications
- Fast and accurate billing
- Multi payment modes: Cash, Mpesa, Bank
- Reports and analytics
- Accounting and expense visibility
- Multi-branch controls and stock movement

Smart Work. Smart Systems. Real Results.

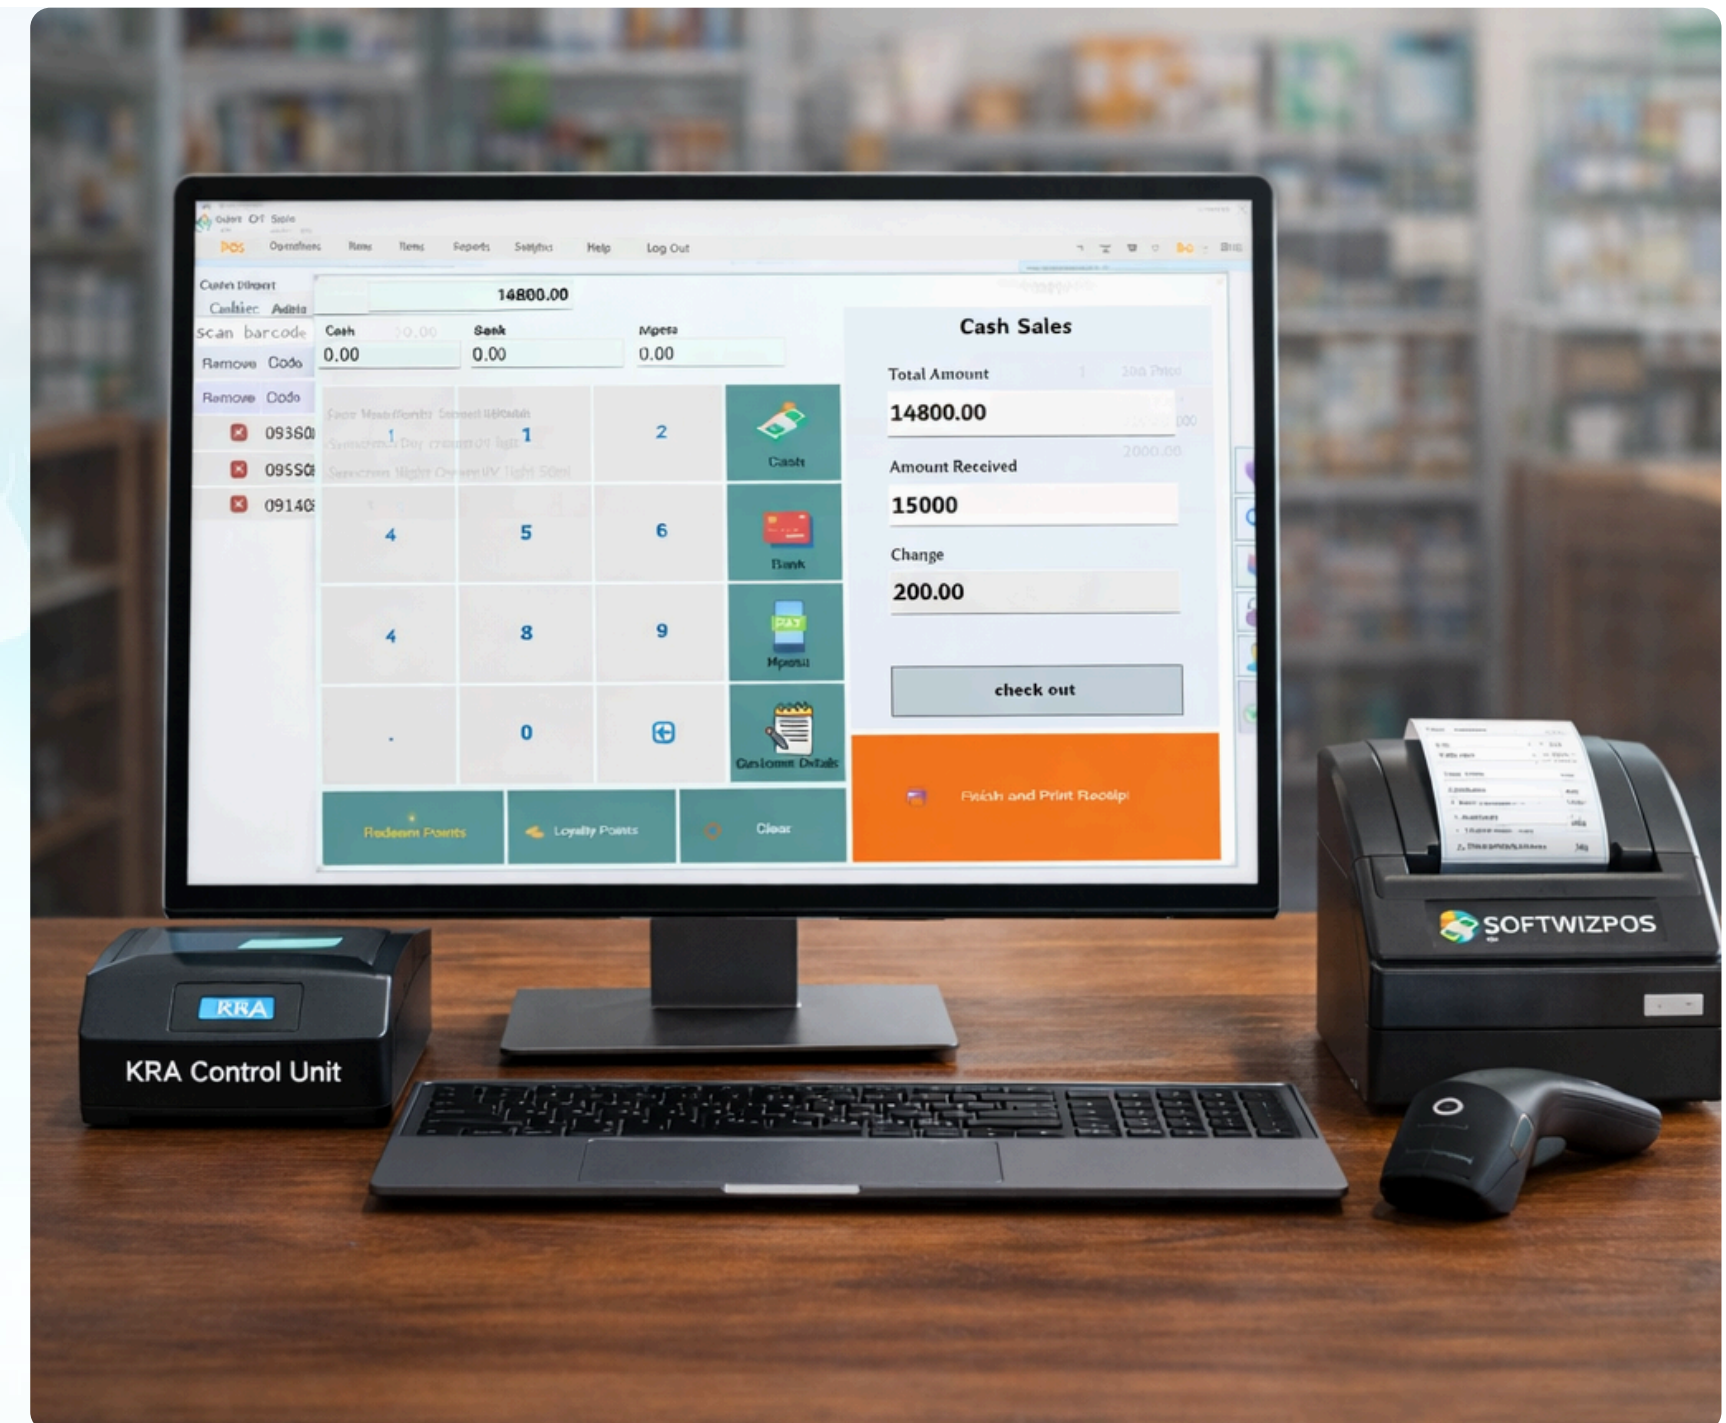

SOFTWIZPRO LTD COMPANY

DAWABORA POS

Pharmacies are not ordinary retail environments. Their workflows require stronger control around medicine batches, expiry, dispensing, suppliers and compliance.

- Batch tracking
- Expired medicine tracking
- Fast dispensing workflows
- Supplier management
- Compliance-oriented operations
- Business visibility and reporting

Smart Work. Smart Systems. Real Results.

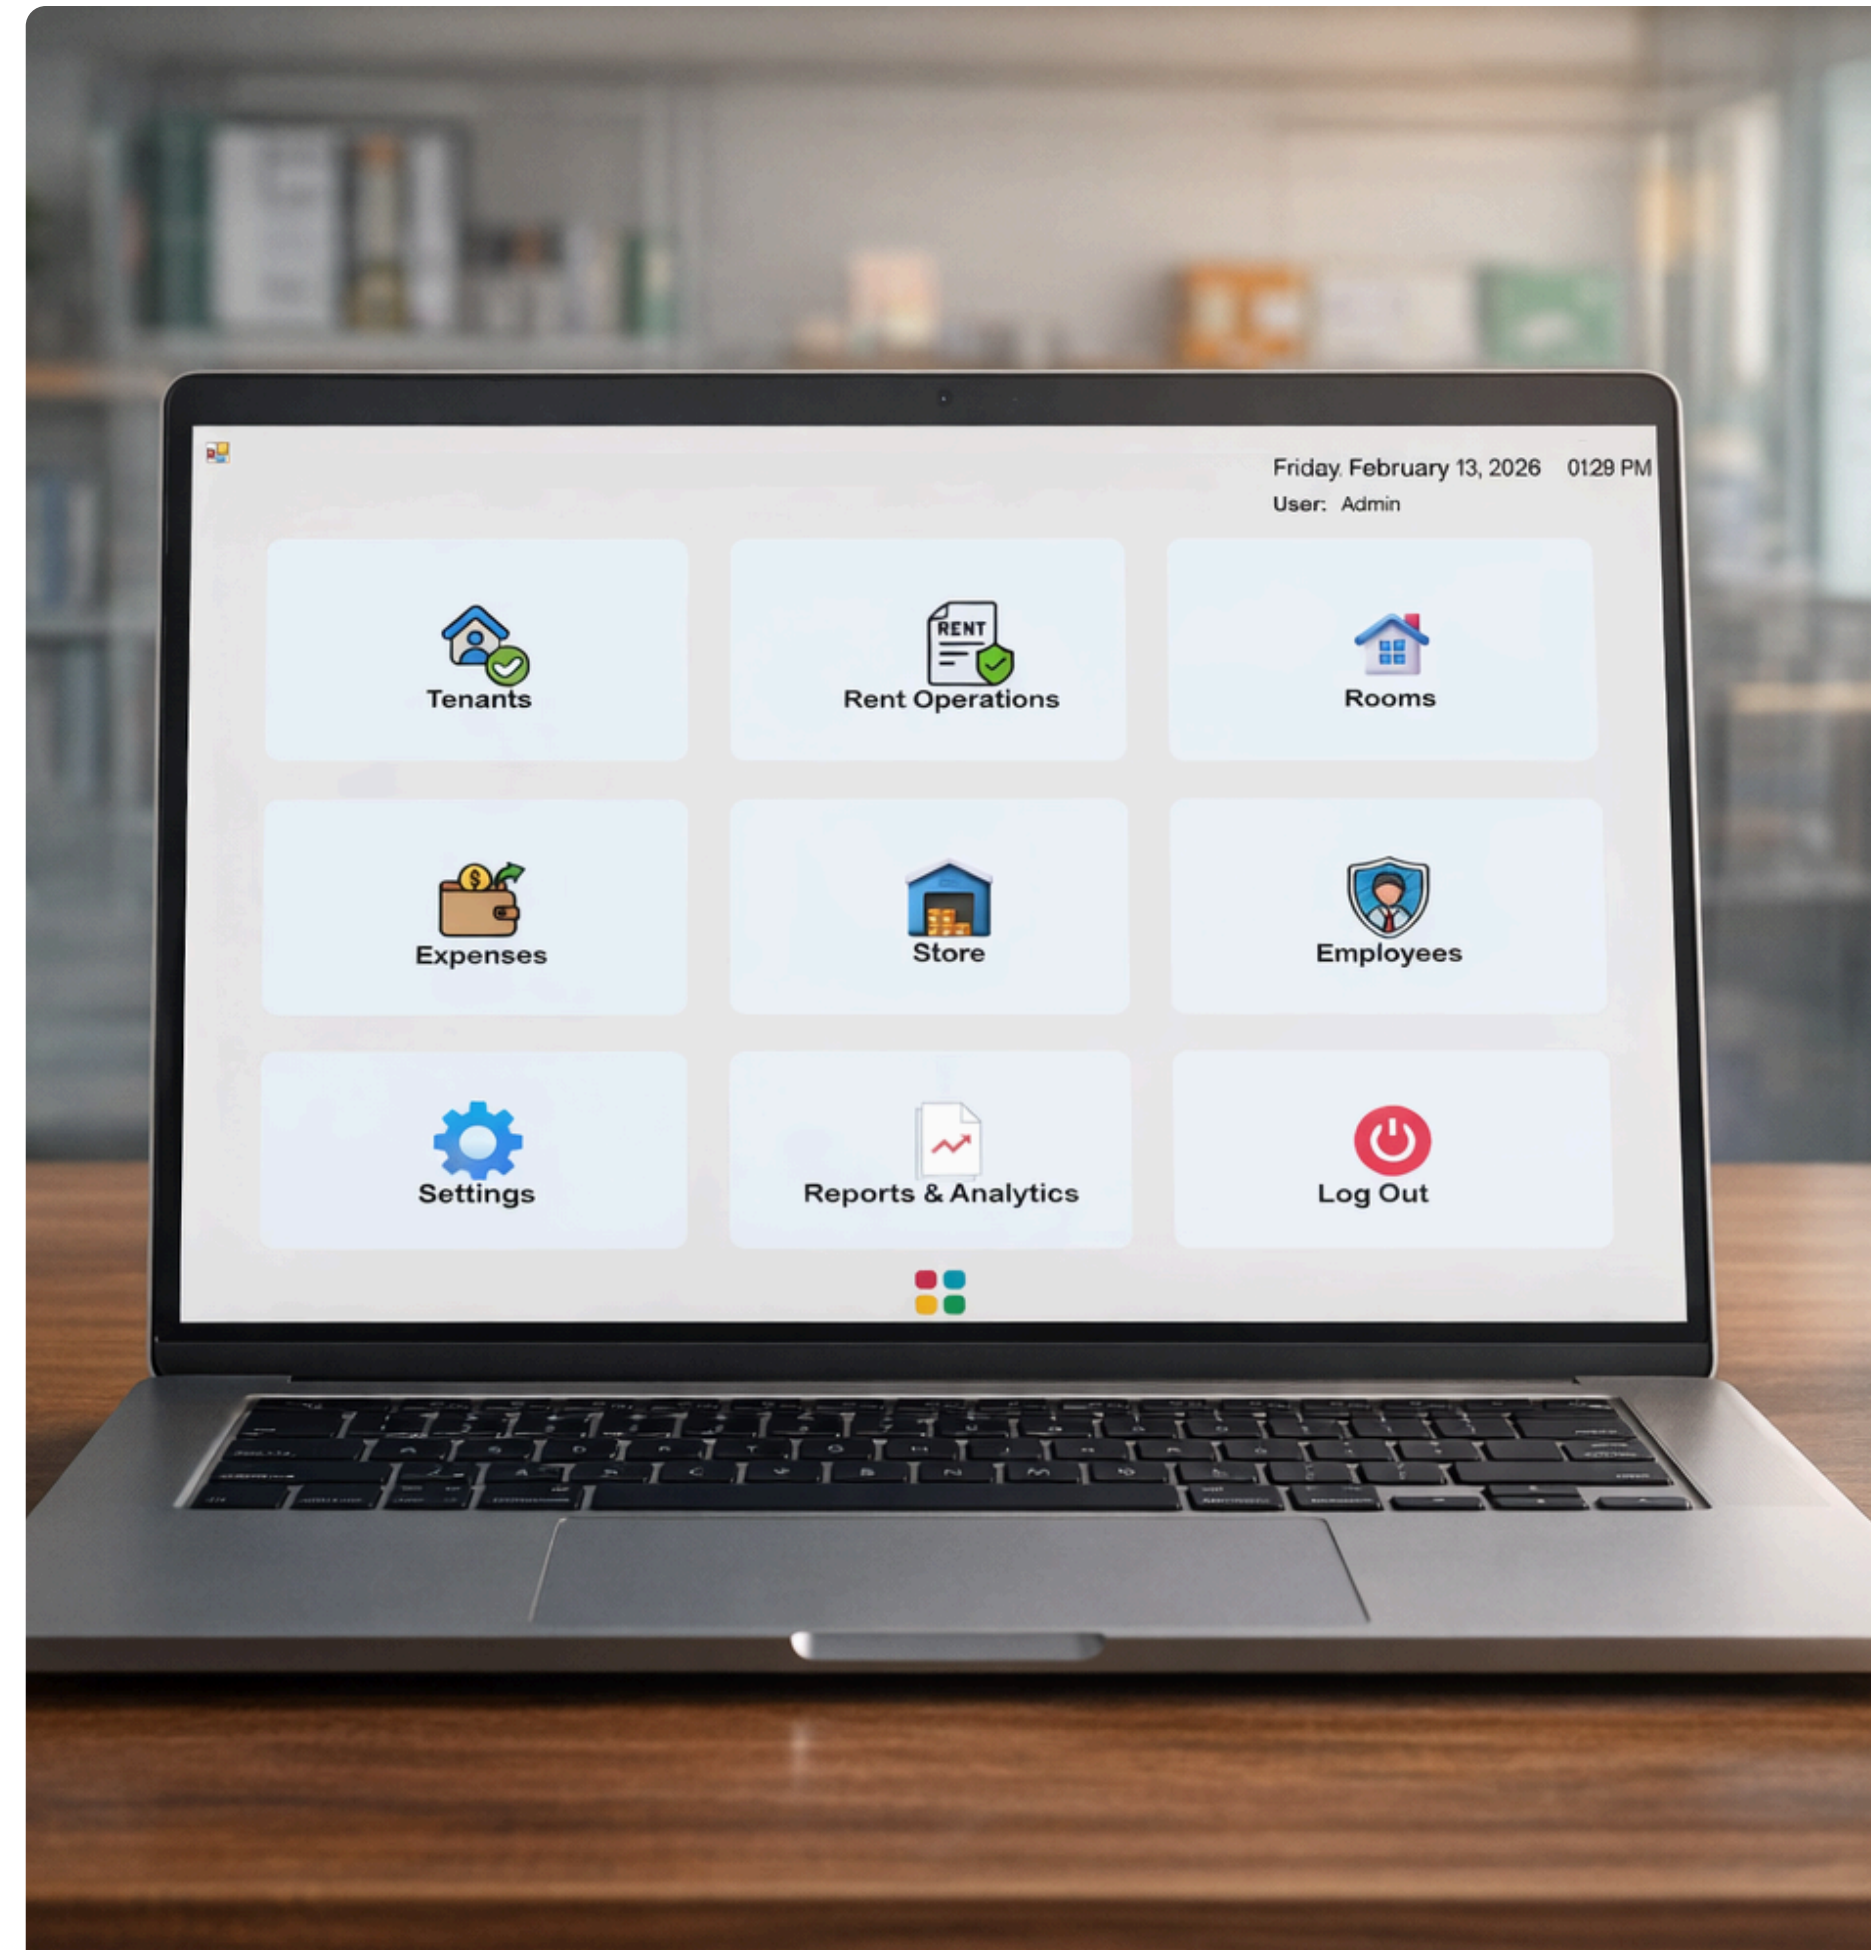

SOFTWIZ RMS

SOFTWIZ Rental Management System designed to automate rental operations and move property managers from manual confusion to complete control.

- Tenant tracking and management
- Unit and room management
- Rent collection and monitoring
- Expense tracking
- Reports and analytics
- Reduced manual work
- Improved visibility of rental operations

Integrations & Compliance

Modern businesses operate across payment, banking and regulatory platforms. SOFTWIZPRO helps bring these systems together.

Our integration capability serves two needs: connecting services into SOFTWIZPRO solutions, and helping businesses integrate services into systems they already use.

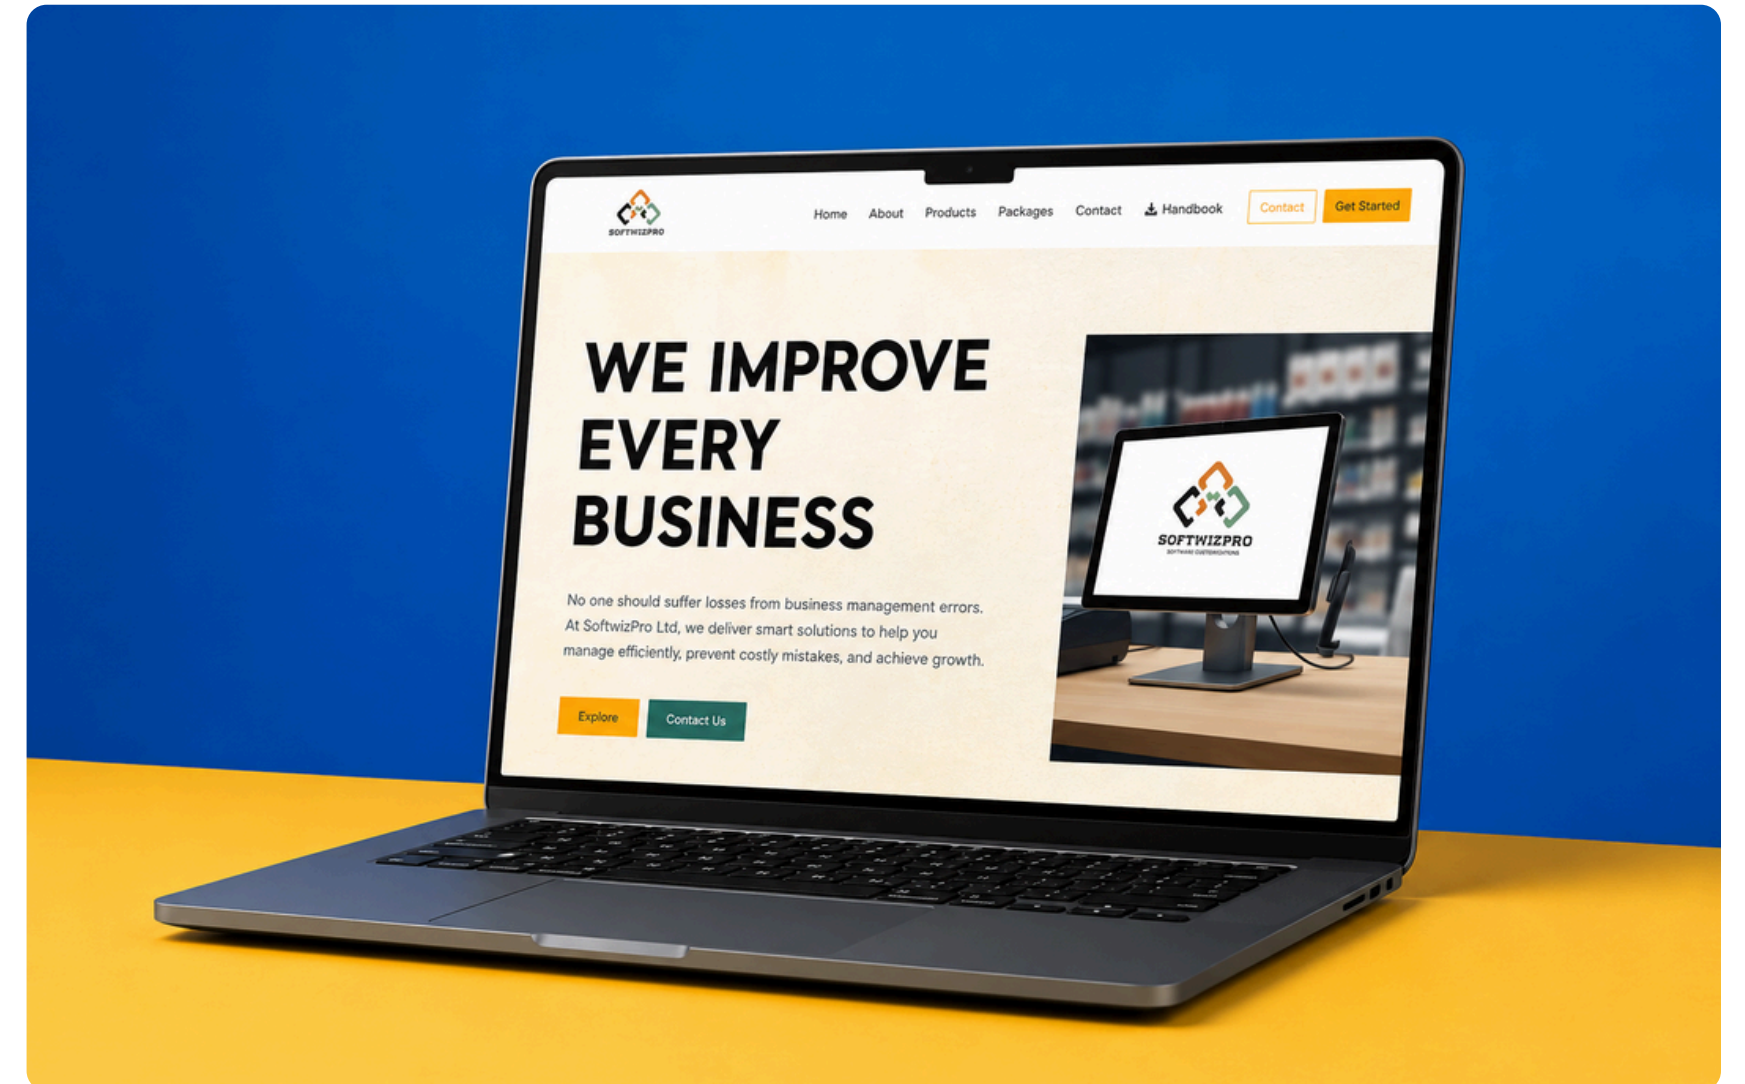

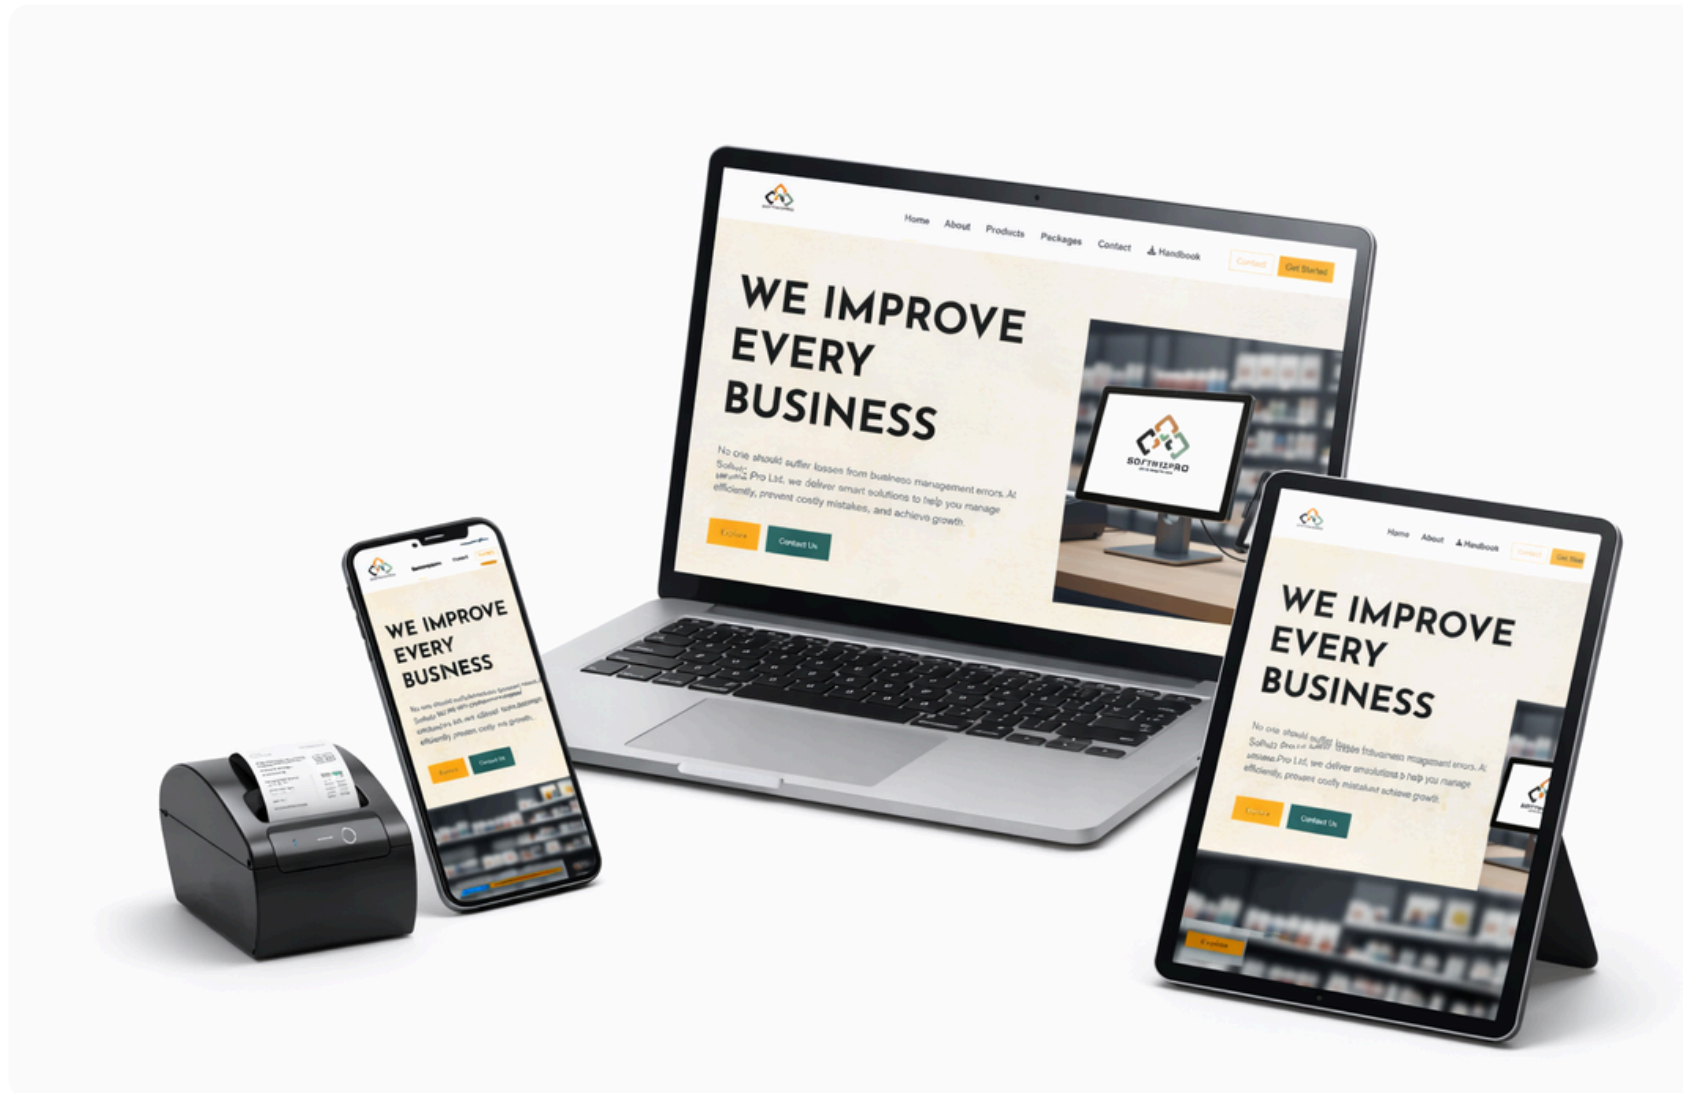

Smart Work. Smart Systems. Real Results.

Website Design

Our approach is to understand the desired output first, then determine the most realistic technology path.

Custom Software Development

Not every business problem fits an existing product. Sometimes the workflow is unique, the organization is growing, the current tools are disconnected, or the idea itself requires a new system.
